An intuitive and simple mobile app accounts lets employees review schedules, request time off and request swaps

# How can we help you IMPROVE?

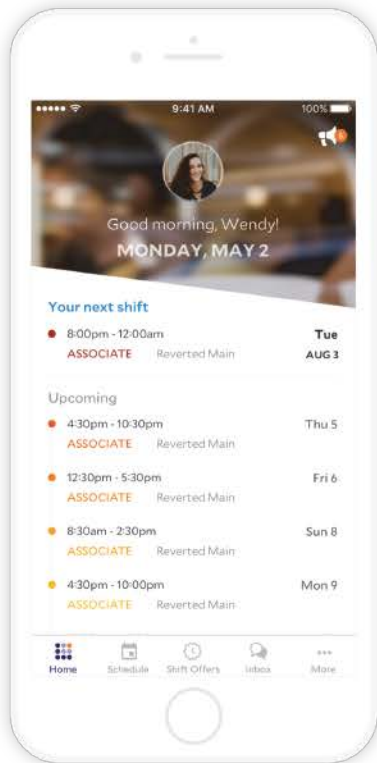

98% accuracy in labor forecast

## ACCURATELY PREDICT DEMAND

Through AI-driven forecasts that:

- Incorporate real-time POS traffic, HR data factors such as weather, local events, holidays and seasonal trends
- Factor in staffing policies, compliance regulations and local labor laws
- Prevent over and understaffing

80% less time scheduling

## MATCH DEMAND WITH LABOR

With precise schedules that:

- Are automatically generated and updated in real time
- Incorporate employee skills and preferences to boost staff satisfaction
- Automatically factor in business rules and compliance

3 in 4 employees more satisfied

## ENGAGE YOUR EMPLOYEES

Through an intuitive mobile app that:

- Gives employees ownership over the scheduling process
- Lets employees fulfill swaps and cover requests by identifying matches
- Takes care of compliance and business policies

Legion's demand-ready labor platform modernizes hourly workforce management for both employers and employees. Results include cost savings, greater labor efficiency and higher employee engagement, all delivered via a smarter and easy to use platform.

Legion customers include Blink Fitness, Barry's Bootcamp, Kendra Scott and SoulCycle.
